

# Premikati Full Procurement Suite BPO Services

Rethinking Your Business Operations with Intelligent Technologies

Today's market is quickly shifting away from the traditional business operating models, leaving companies like yours concerned about maintaining sustainable growth. Business process outsourcing (BPO) solutions from Premikati empower you to offload sourcing and procurement tasks to an award-winning team. With Premikati, you'll be supported by the power of a management consulting firm specifically tailored to procurement and supply chain solutions.

At Premikati, it's our mission to help our clients—both buyers and sellers—with all facets of procurement strategy. Our suite of BPO services delivers intelligent solutions, leveraging our expertise, supplier relationships and first-class technology solutions without the cost and headache of managing an internal team.

## The Premikati Difference

As one of only six global SAP® Ariba™ BPO Partners, we offer a comprehensive solution that combines world-class procurement software with the professional services needed to run and administer the technology. We help you deploy a complete, cost-effective BPO solution in a fraction of the time.

### We Are Proud to Be:

- ▶ An SAP Gold Partner
- ▶ A WBENC-Certified, Woman-Owned Business
- ▶ A Team of SAP Ariba Experts

## Premikati Business Process Outsourcing Delivers:

### Greater Flexibility

With Premikati as your BPO partner, you can quickly adjust to changing market conditions and allocate resources where they're needed most.

### Competitive Advantage

Enlisting Premikati for your sourcing and procurement needs allows you to focus on the core functions of your business and establish yourself as a market leader.

### Better Performance

We give you the best quality services and perform them with greater efficiency and speed than an in-house team member who lacks the same experience, tools and specialization.

### Cost Efficiency

By outsourcing your BPO needs to Premikati, you'll save significantly over the cost of hiring, training and maintaining an in-house team with the same level of expertise.

## Why Should Your Business Invest in BPO?

57 percent of businesses that outsource their business processes do so to enable their team to spend more time focusing on core business functions. If you want to stay ahead of your competitors, you can't afford to take any time away from your core business functions. Turn to the procurement experts and stay fully focused on your company's mission.

## Outsourcing Your Business Processes to a Team of Experts Can Result in:

- ▶ Improved Productivity
- ▶ Freedom to Focus on Core Business Needs
- ▶ Optimal Resource Utilization
- ▶ Increased Diversity of Skills
- ▶ More Global Presence
- ▶ Less New Hires/Fires
- ▶ Staying on Budget

## About Premikati

Premikati, in partnership with SAP Ariba, offers a comprehensive solution that combines world-class procurement software with the professional services needed to run and administer the technology. By offering both services and technology, Premikati helps organizations deploy a complete solution in a fraction of the time. This accelerates your ROI and eliminates the risk of failed, costly implementations that many organizations face during deployment.

## Premikati Delivers:

### Less Cost, More Time

Businesses can leverage employees' strengths, saving up to 30% of their time and money and giving them back time to focus on core business functions.

### Our Expertise

Leverage our team of award-winning SAP Ariba experts for the support and resources to position yourself as a world-class procurement department. When you partner with the sourcing and procurement experts at Premikati, challenges become successes.

Rethink your operations with intelligent business process outsourcing solutions from Premikati.
